PENSION NEWS

PUBLICATION OF THE FIREMEN'S ANNUITY & BENEFIT FUND OF CHICAGO

TWENTY SOUTH CLARK STREET- SUITE 1400 CHICAGO, ILLINOIS 60603 TELEPHONE (312) 726-5823 Office Hours - 8:00 a.m. to 4:30 p.m. — Monday through Friday http://www.fabf.org

RETIREMENT BOARD

Ex-Officio Members

Charles Stewart III, First Deputy Fire Commissioner Stephanie Neely, City Treasurer, Vice-President Amer Ahmad, City Comptroller Susana Mendoza, City Clerk of Chicago

Elected Members

Anthony R. Martin, Fund Secretary Michael Shanahan, President Dan Fabrizio, Elected Active Member Walter Carlson, Annuitant Member

FROM THE SECRETARY

ANTHONY R. MARTIN

THE PENSION CHALLENGE

The landscape for public employee pension plans continues to be a highlighted challenge in Illinois. The voices for pension repair, depending upon their political leanings, personal interests and or business interests, have spent much time and effort endlessly documenting and speculating as to the causes of all the state pension woes. The media has rightly criticized the practice of accumulating service credits in multiple pension funds for the same hour of work, the practice of pension spiking and the skipping of pension payments by many government employers. Collectively, all of these various voices have been successful in identifying all of the problems but vary drastically on the proposed solutions. In spite of all of all the dire rhetoric surrounding public pensions over the past few years, the crisis is not new. A lasting equitable solution is necessary.

With respect to Chicago firefighters and paramedics, the historical challenge in obtaining the necessary funding to properly provide "promised" disability, survivor and pension benefits is a long-standing, recurrent issue. The issue goes back further than any of us has been alive. In the office of our Fund, the minutes of the Firemen's Annuity and Benefit Fund date back to 1887. A Fireman's retirement benefit was 50 percent of his salary upon reaching age 50 with 20 years of service. The code also provided for a modest benefit of \$30 to all widows and \$6 to each minor child of an active or retired firemen. The 1887 pension code replaced the 1877 code because of the failure to properly fund previously "promised" retirement benefits. The three-page 1887 pension document was amended and rewritten many times until the current code was adopted in 1931. It is interesting to note that in going over the last 125 years of board minutes, at no point in time has this Fund been fully or even well funded. To date, the highest identified funded ratio on record is approximately 62%.

Today, as a direct result of Illinois history, the pension reform saga continues. In late 2010, the State of Illinois passed legislation and signed into law by Governor Quinn, the reduction in future employee retirement benefits. This was not a sufficient resolution to solve Illinois pension woes. Given the magnitude of Illinois' fiscal hole that was left unresolved, the calls for reform continue.

No employee wants to pay more for their benefits or have their benefits reduced. Mayor Daley's Commission to Modernize Chicago's Pension Systems concluded that Chicago Fire and Police generally pay a higher percentage of their income for benefits which are less generous when compared to their counterparts in other systems throughout the country. No state legislator wants to raise taxes to shore up the pension systems after having increased the state income tax by 66

2/3%. No municipal official wants to raise property taxes. Given the state of the economy, few if any members of the general public want to pay higher taxes. Additionally, the general public is angry with all the political gamesmanship and much publicized corruption. But, the problem still remains: Funding must be procured.

These predictable dynamics were reasons why public employee groups fought to have the pension protection clause included in our constitution in 1970. The pension protection clause in the Illinois constitution was specifically included to protect public employee pension rights while employed as a current government employee and in retirement. The clause, while not understood to require a specific level of funding, was intended to compel adequate funding of pensions indirectly by putting the state and municipal governments on notice that they are responsible for pension benefits and paying them when they are due. The clause was seen as vital in 1970 because Illinois pension funds were in worse shape than they are even today. The five state pension funds had an average funding ratio of approximately 41%. By comparison police and fire pension funds were respectively only 33.8% and 19.1% funded.

Prior to the adoption of the 1970 Illinois constitution, public employees were concerned about the possibility of their pension funds going bankrupt and having their pensions wiped out. The goal of the employee groups who fought for the amendment was to prevent lawmakers from increasing current employee contributions, as well as reducing the "promised" benefits to current employees and retirees.

Due to chronic underfunding, and the economic downturn over the past decade, the state of Illinois reduced pension benefits for future employees in many pension systems in an attempt to tame the growing unfunded pension obligations. The legislation reduced benefits for members of the Chicago Fire Department hired on or after January 01, 2011 and also requires that the City increase its contribution to the Fund in order to attain a 90% funded status in thirty years. While the reduction in benefits are certain to be administered by the Funds in accordance with the new statute's provisions, it remains to be seen whether any statute mandating a specific level of funding can ever be consistently enforced in Illinois given our legislative history and judicial precedents. In the absence of political courage and resolve to deal with the pension funding issues in a manner that meets constitutional language and intent, bitter legal battles are certain to occur.

The well publicized position of the Civic Committee of the Commercial Club of Chicago, and a few law firms affiliated to the club by way of membership, the Chicago Tribune Editorial Board and some members of the present city administration seem inevitably to be leading our state, cities and groups representing the rights of public employees in the direction of time consuming and costly litigation. Many of the advocates of pension repair have continued to advance fixes consistent with the opinion of Sidley and Austin, a law firm affiliated with the Commercial Club. Sidley and Austin's opinion recommends reducing pension benefits not only for future government employees, but all current employees and retirees. Sidley and Austin's position on the legality of the reduction in benefit proposals has been discredited by the Illinois State Bar Association. Additionally, the same proposals have been criticized by dozens of law firms, judges, as well as Senate President John Cullerton's chief legal counsel, Eric M. Madiar. The overwhelming view of the legal observers who have thoroughly analyzed much of the proposed legislation to reduce current employee and retiree benefits in a manner consistent with the position of Sidley and Austin, the Civic Committee of the Commercial Club and, opinions of the Chicago Tribune's Editorial Board is that they clearly advocate violating the Illinois constitutional rights of public employees and quite possibly violate federal law.

In spite of questionable legality of the proposals, the trustees and staff of the Firemen's Annuity and Benefit Fund of Chicago believe the pension crisis in our state is serious. Our Fund has regularly informed the City administration on the fiscal health of our retirement system and requested increased funding. The Fund has introduced language to the General Assembly to increase funding. We have historically opposed legislation adversely impacting upon the fiscal health of our pension fund. We have worked conscientiously to obtain the best possible investment return on the Fund's assets. Over a nine year period beginning in 2003, the Fund, starting with approximately \$800 million dollars under management, received approximately \$1 billion in employee and employer contributions. Over that same period of time, the Fund paid out approximately \$1.75 billion dollars in benefits. We currently have approximately \$900 million dollars of assets under management which reflects well on this Fund's overall performance.

(cont.)

There are many people who remain fixated on fault or call for shared sacrifice without indicating any willingness to share in the sacrifice necessary to address Illinois pension issues. However, this Fund has been and remains committed to working in good faith with all parties to resolve this challenge. There are solutions. It is unfortunate that public employees and their families have had to endure the concerted effort to pit the taxpayers of the general public against those citizens who make living providing vital public services. In closing, we must continue to be engaged in putting the pension issues in their proper context, forging solutions and moving forward no matter how uncomfortable this is for all of us.

RETIREE HEALTH CARE UPDATE

Dear Retired and Widowed members:

As you know retiree healthcare has been provided to all City of Chicago present retirees (and their dependents) through the City of Chicago self-insured health plans on a cost sharing basis pursuant to the terms of a series of settlement agreements arising from a lawsuit captioned *City of Chicago v. Marshall Korshak*, et al., No. 01-CH-4962 (formerly No. 87-CH-10134)(the "Korshak Litigation"). **Pursuant to the terms of the Settlement Agreement reached in 2003, the current arrangement for the payment of your healthcare services will terminate on June 30, 2013.**

We hope to accomplish three things with this letter: (i) to remind you that the terms of the Settlement Agreement expires as of June 30, 2013 and, as a result, your current health care plan with the City may change; (ii) to advise you that a brief history of the Korshak Litigation is available upon request or on line at fabf.org; and (iii) to update you as to the status of the Retiree Healthcare Benefit Commission (the "RHBC") which is meeting to discuss, review and make recommendations as to the plan design of retiree health care benefits, costs regarding the same and all other issues relating to the provision of retiree health care after June 30, 2013. Further updates will also be made available online and upon request.

As stated above, the 2003 Settlement Agreement governing your current health care plan expires on **June 30, 2013**. Without a further agreement being entered into between the parties or some legislative action being taken, the provision of retiree healthcare services on the basis of shared funding could be lost or interrupted with the parties reverting to their litigation positions, resulting in further litigation. Each retiree should, therefore, take whatever steps he or she deems prudent to prepare for the possibility that after **June 30, 2013** the City will not provide a health care plan for retirees or, alternatively, that the terms and costs of any future health care plan for retirees may differ significantly from the health care plan now in existence.

The Korshak Litigation has been ongoing for over twenty years. In the litigation, the four municipal pension funds (Fire, Police, Municipal and Laborers) (collectively "the Funds"), representing a class of approximately 35,000 current annuitants (including Retirees, Widows and Children) and the City of Chicago have vigorously litigated all issues relating to the provision of healthcare services for City retirees (present and future), including, without limitation, the issue of funding for all retiree healthcare services. The last 10 year Settlement Agreement reached in the Korshak Litigation, on April 4, 2003, (the "2003 Settlement Agreement") provided, in part, that (i) the City would pay between 40% and 55% of each annuitant's healthcare costs (depending on length of service at the time of retirement); (ii) the Funds would pay an agreed upon monthly subsidy to reduce each annuitant's portion of his/her healthcare costs; and (iii) the annuitants would pay from their monthly annuities the balance of the costs as premiums. Many other complex issues were also negotiated and agreed to as part of the 2003 Settlement Agreement. It is the 2003 Settlement Agreement that, by its terms, expires on June 30, 2013. As stated above, a summary of the Korshak Litigation, including, the various settlement agreements that have been reached over time between the parties, is available on line or upon request from the Fund.

A material provision of the 2003 Settlement Agreement provided that a Retiree Health Benefits Commission be established by the City (i) to review, make recommendations and approve plan design changes to the existing retiree health care plan that may be proposed by the City **prior to June 30, 2013**; and (ii) to make recommendations as to the plan design

(cont.)

of retiree health care benefits, costs regarding the same and all other issues relating to the provision of retiree health care after June 30, 2013. Recently, in April 2012, the Funds were notified that the RHBC has begun meeting on a bi-weekly basis to address health care issues. The RHBC is anticipating that it will provide recommendations to the City by the end of October 2012.

The Funds also have been notified that Mayor Emanuel has appointed Mr. Will Irving, an appointed Trustee to the Laborer's and Retirement Board Employee's Annuity and Benefit Fund of Chicago, as the Retiree representative member of the RHBC. The Funds have requested that Mr. Irving provide information to the Funds concerning the constitution of the members of the RHBC Board, provide minutes of the meetings and to report on the progress of the RHBC to each of the respective Funds on a timely basis. The Funds will attempt to update annuitants and beneficiaries as material information relating to the RHBC's activities becomes available.

As of this date, we are unable to report to you: (i) what, if any, recommendations the RHBC will make to the City regarding the provision of post **June 30, 2013** healthcare plan services and the funding of same; or (ii) what the City will do when, and if, such recommendations from the RHBC are forthcoming. You are encouraged to keep yourself informed as to this healthcare issue and how resolution of the issue may affect you and your dependents. We encourage you to regularly check the Fund's website for updated information.

HISTORY OF KORSHAK HEALTH CARE SETTLEMENT

For a period of 25 years, the four municipal pension funds (Fire, Police, Municipal and Laborers) (collectively "the Funds"), representing a class of approximately 35,000 current Beneficiaries (including Retirees, Widows and Children) and the City of Chicago (the "City"), have vigorously litigated in the Illinois courts all issues relating to the provision of healthcare services for City retirees (present and future), including, without limitation, the issue of funding for all retiree healthcare services (the "Korshak Litigation").

This class action *Korshak* Litigation began in 1987. In 1988, after proofs were introduced into evidence and while the court (Judge Green) was deliberating, the Parties' entered into a ten-year settlement agreement and as required by law submitted the terms of their agreement to the court for the court's determination as to whether the terms of their agreement were fair and equitable as to all concerned. The Parties, among other terms, had agreed that for the ten year term of the agreement, the City was to pay 50% of all retiree healthcare costs. Notably, Judge Green and thereafter the Illinois Appellate Court both expressly ruled that the terms of the 1988 ten year settlement agreement, including the City's commitment to fund 50% of all healthcare costs, were indeed fair and equitable.

Upon expiration of the Parties' 1988 ten year settlement agreement in 1997, the Parties effectively agreed that substantially all of the same terms as set forth in their 1988 ten-year settlement agreement, including the city's agreement to pay 50% of all retiree healthcare costs should continue for an additional five years, until June 30, 2002. This five year extension of the terms of the 1988 ten year settlement agreement was accomplished through the passage of mutually agreed upon legislation by the Illinois General Assembly. On June 30, 2002, the legislation was again extended to June 30, 2003, while the Parties continued to both litigate as to all annuitant healthcare issues and to engage in extensive settlement negotiations in order to, if possible, arrive at another settlement agreement.

THE 2003 SETTLEMENT AGREEMENT

On April 4, 2003, the Parties then entered into a second ten year Settlement Agreement to bind the Parties until **June 30, 2013**. (The "2003 Settlement Agreement"). In the 2003 Settlement Agreement, the Parties agreed, among many other terms, that (i) the City would pay between 40% and 55% of each annuitant's healthcare costs (depending on length of service at the time of retirement); (ii) the Funds would pay an agreed upon monthly subsidy to reduce each annuitant's portion of his/her healthcare costs; and (iii) the annuitants would pay from their monthly annuities the balance of the costs as premiums. Many other complex issues were negotiated and agreed to by the Parties. Once again, the Parties, as required by law, submitted the 2003 Settlement Agreement to the court (Judge Dooling) for a determination as to whether the 2003

HISTORY OF KORSHAK HEALTH CARE SETTLEMENT

(cont.)

Settlement Agreement was in fact, and pursuant to applicable law, fair and equitable as to all the Parties. Notably, on July 31, 2003, in a 21 page carefully reasoned opinion Judge Dooling ruled "This Court finds the Settlement Agreement to be fair, reasonable, adequate and in the best interests of all concerned parties."

Specifically, after considering the long history of the contentious litigation and weighing the risks and benefits as to each of the litigants, the court stated:

"This Court determines the settlement is fair, reasonable, adequate and in the best interests of all concerned. Simply put, the annuitants receive good healthcare coverage for ten years and the City avoids the possibility of a financial burden that could greatly weaken the City's economy. If the class members should prevail on their counterclaim and become entitled to health care coverage for life at pre-1983 rates, it would impose a tremendous financial burden on the City and taxpayers of Chicago. On the other hand, if the City should prevail, the class members would be without health care coverage at a time in their lives when obtaining coverage would be very difficult and extremely costly. The same public interest that favors settlement also favors the City providing good health care coverage for the thousands of class members who have and those who will continue to honorably serve the City and citizens of Chicago."

THE RETIREE HEALTHCARE BENEFITS COMMISSION SUSPENSION

In September 2011 the Funds were notified that the meetings of the RHBC had been suspended (the "RHBC Suspension"). Upon receiving this information, the Funds' requested a meeting, at which representatives of the City were present, to discuss the impact of the RHBC Suspension. City representatives indicated that the RHBC Suspension occurred due to liability and indemnification concerns among the RHBC members and the third party experts contacted to assist in the RHBC's work. The Funds, on their part, stressed that the RHBC Suspension was untimely and constituted an impediment to the timely provision of post **June 30, 2013** healthcare services for all City retirees.

Thereafter, in January, 2012, the Funds again requested the reinstatement of the RHBC and the conduct of regular meetings such that meaningful recommendations would be timely made by the RHBC to the City in respect to healthcare for City retirees.

RE-INSTATEMENT OF THE RETIREE HEALTHCARE BENEFITS COMMISSION

Recently, in April 2012, the Funds were notified that the City Council has resolved the indemnification issues for all of the RHBC members except for the Retiree representative. The RHBC has begun meeting on a bi-weekly basis. They are anticipating that they will provide recommendations to the City by the end of October 2012.

The Funds have also been notified that Mayor Rahm Emanuel has appointed Mr. Will Irving, an appointed Trustee to the Laborer's and Retirement Board Employee's Annuity and Benefit Fund of Chicago as the Retiree representative member of the RHBC and that Mr. Irving attended an initial RHBC meeting on June 22, 2012. Another subsequent meeting was held on July 13, 2012. The Funds have requested that Mr. Irving provide information concerning the constitution of the members of the RHBC Board, to provide minutes and to report on the progress of the RHBC to each of the respective Boards on a timely basis. The Funds will update all beneficiaries as information becomes available.

As of this date, we are unable to report to you: (i) what recommendations the RHBC will make to the City regarding the provision of post **June 30**, **2013** healthcare plan services and funding of same; or (ii) what the City will do when and if such recommendations from the RHBC are forthcoming.

WALLY CARLSON, RETIRED TRUSTEE

2013

I will begin this brief note by asking all members to take the time to read the update and corresponding history of our retiree health care program on pages 3, 4 and 5. It is a good review as we look forward to the status and future of the City of Chicago Retiree Health Care Program.

Our retirees and widows have been fortunate to have been able to participate in this program for the past 25 years with the protection of the court under the settlement agreement in the Korshak lawsuit. On June 30, 2013, the existing settlement agreement, which governs the current Retiree Health Care Program, is set to expire. These are new times, and the City is run by a new administration. They have a lot of issues to contend with. I cannot say with any amount of certainty that I believe they will continue the Retiree Health Care program as it currently exists.

As Trustees of the Funds, we were made party to the City's Korshak lawsuit in 1987. We will continue to monitor the activities of the Retiree Health Care Benefits Commission (RHBC), to see what suggestions concerning the future of the Retiree Health Care Program that they might come up with. We will keep you informed of their progress.

At the very worst, the City might attempt to terminate the program and let our members rely on their own Medicare coverage. I sincerely hope that a manner in which to continue the program will be achieved. As public safety members, we have always prepared for contingencies on the job. Members should all ask themselves "what if" in this circumstance and be prepared. As Trustee, I will make sure that communications with our members are kept current. I will not hesitate to rally the troops or look for Local 2's involvement in this issue if and when it becomes clear to me that progress is not being achieved.

It's August so I'm headed up north to Door County for a couple of weeks. Look for me at Johnson's Swedish Restaurant in Sister Bay. With that I will wish everyone a safe and healthy remainder of the summer.

MY TAKE ON DISABILITIES

MICHAEL J. SHANAHAN, ACTIVE TRUSTEE

As our members are aware, the Chicago Sun Times has been writing about what they believe are abuses within the Disability programs of both the Chicago Fire Department and the Chicago Police Department. In recent articles, the prominent suggestion appears to be that disabled members in question were working outside jobs while receiving disability benefits from the respective Funds.

As it stands, there are no current statutory restrictions that prohibit recipients of disability from the Chicago Police and Fire Funds from having other outside employment. It is my belief that the Illinois State legislature specifically understood the nature of Public Safety and the risks associated with it. They did not think it necessary to penalize our members who are physically prevented from continuing their dangerous heavy level positions, from doing other things.

As current President of the Firemen's Annuity and Benefit Fund of Chicago, I will not comment on anything concerning the Police Department or its members in receipt of disability. I can tell you that the Fire Fund will hold a hearing to terminate benefits if a disability recipient's activities refute their own testimony. I can also tell you what I see about Fire Department disabilities. The following information was provided to the Sun Times and they may still see fit to print it.

- The Retirement Board ("Board") of the Firemen's Annuity and Benefit Fund of Chicago ("Fund") currently has 380 members on disability; 252 duty, 124 occupational disease, 4 ordinary. This totals approximately 7 ½ % of the total current active Chicago Fire Department Population.
- At 7 ½ %, the Fund's roster of disability recipients as a percentage of active membership, is considerably lower than that of other major municipalities; New York is approximately 79%, Boston, at between 50% and 60%, Houston is approximately 10%, Los Angeles is 16.6% (fire & police combined)
- The Board is responsible to oversee the process of disability application, review and hearings in accordance with the provisions of 40 ILCS, Act 5, Article 6 et. Seq. As such, in June 2000, the Board adopted procedural rules governing the application for and administrative hearings for duty, occupational disease and ordinary disability. Every disability hearing proceeds according to the format of these rules and the Board votes to grant or deny a member's application solely upon the manifest weight of evidence presented as part of each application.
- In the 10 years from 2003 through May 2012, a total of 443 applications for disability were received and presented for hearing before the Board. 72 (16 ½ %) of these applications were denied by the Board. 57 of these denials were sustained, 10 of these decisions were overturned on appeal and 5 remain pending on appeal.
- In accordance with Chicago Fire Department policy, if a member is not 100% fit for active duty, they will not return them to active duty. In the same time period 2003 through May 2012, 8 members were removed from the disability roster based on evidence that the disability had ceased. The fire department then considered them for return to active duty. 17 of 72 other disability applicants that were denied disability benefits were returned to active duty.
- During the application process, it is the participant's Burden of Proof to prove that he/she is disabled for either of the benefits available. Once disability is granted, it becomes the Board's Burden of Proof that the member is no longer disabled and is capable to return to duty. It is substantially more difficult for a disabled member to return to duty than it ever was for that same member to obtain his position as a new candidate. Returning a disabled member to active duty requires an examination and concurrence of that member's capabilities by several treating or consulting physicians. Upon removal from the disability roster, it then becomes the member's Burden of Proof to prove to the Chicago Fire Department that they are no longer disabled and are capable of performing the essential functions of the job. The Board has absolutely no authority to require any disabled member to accept treatment or undergo any procedure that could potentially hasten their return to active duty. The Board has attempted to introduce legislative amendments to provide limited authority in this matter without success.
- The Chicago Fire Department does not have light duty for any member that is less than 100% capable of performing full duties, which are rated at the very heavy level by the Department of Labor and OSHA.

MICHAEL J. SHANAHAN, ACTIVE TRUSTEE

The Chicago Fire Department has successfully challenged the statutory requirement to return a disabled member whom the Board has determined to no longer be disabled.

• Since approximately 2000, the Board and staff introduced outside medical case management to assist in the review and evaluation of all existing disability recipients and all new applications for disability benefits. In addition to the Fund's legal counsel and the 40 years of experience of the Fund's Physician Consultant, the Board has utilized the services of independent medical examinations, video surveillance, and in some instances, have called available adverse witnesses during the course of any hearing and follow-up in consideration of a member's disability status.

In my position as elected trustee I can honestly tell you that I have never hesitated to provide this statutorily authorized benefit to a member that is legitimately injured in the performance of his/her duties. Neither would I hesitate to vote no on any member's application that I did not feel met the burden of proof.

The other reality is the appeal process. Many of the subjects highlighted in the Sun Times' article were denied their benefits by the Fire and Police Boards only to have those decisions overturned by the Cook County Circuit Court or the Illinois Appellate Court. As stated above, 10 of our denials were overturned by a court.

I personally believe that the new City Administration will be looking closely at some of the benefits we as public safety officers have enjoyed; including Lay-Up periods, Light Duty requirements, Intra-department Job training and possible statutory restrictions on employment for disabled members. All members must be responsible to be good union stewards of the benefits we currently hold. Attend meetings. Vote in Elections. Don't complain when it's too late.

2012 PRE-RETIREMENT SEMINARS

SATURDAY, SEPTEMBER 22, 2012 (2C EMS-1) SATURDAY, NOVEMBER 17, 2012 (1A EMS 1)

8:00 A.M.	ROLLS & COFFEE
8:20 A.M.	INTRODUCTION
8:30 A.M.	WILLS & ESTATE PLANNING

FIRE DEPARTMENT TRAINING ACADEMY 558 West DeKovan – Chicago, Illinois 60608

BREAKFAST AND LUNCH ARE PROVIDED RSVP REQUIRED: CALL (312) 726-5823 (SPACE IS LIMITED)

(THIS SEMINAR IS PROVIDED FOR THOSE MEMBERS WITHIN 3 YEARS OF ACTUAL RETIREMENT)

On behalf of our minimum widows, all of our children beneficiaries and every other person who is proud to be associated with the Chicago Fire Department, we wish to extend our sincere appreciation to the boxers and organizers of this year's 10th Annual "Battle of the Badges" event.

Over 3,000 people, including Mayor Rahm Emanuel, packed into De La Salle High School's athletic facility for the matches and witnessed the Chicago Fire Department team win a close victory over the Chicago Police Department Team. What a truly amazing event and fabulous testimony to the results that can be produced when dedicated individuals unselfishly put their hearts and souls toward a common goal.

The Ende, Menzer, Walsh & Quinn Retirees' Widows' and Children's Assistance Fund is the grateful beneficiary of a \$6,875.00 donation from the proceeds of the event.

Chicago Fire Department Team

Coaches: Al Ortiz, Brian Lebron, Steve O'Malley

Boxers: Meg Alheim, Tom Arnswold, Scott Birmingham, Jose Calvillo, Pat Farenbach,

Thank you to all for your generosity

WIDOWS' & CHILDREN'S ASSISTANCE FUND WEB SITE

On behalf of the minimum widows and children beneficiaries of the Chicago Fire Department, the Retirement Board and staff of the Firemen's Annuity and Benefit Fund of Chicago and the Directors of the Ende, Menzer, Walsh & Quinn Retirees', Widows' and Children's Assistance Fund wish to thank all those active and retired members and friends for their continued support. Because of this support, in December 2011 the EMWQ Fund was able to distribute \$605,000 to 715 widows receiving \$1,500 or less each month, and all 85 children beneficiaries. We continue to remember our own and it speaks volumes about the fine character of men and women of the Chicago Fire Department.

The EMWQ Fund is working harder than ever to increase the assistance we gave give to those in need. We are expanding our fundraising efforts and supporting that effort with increased visibility for the organization.

LEARN MORE ABOUT US ON LINE

In July 2012, we launched a new web page at www.widowsandchildren.org.

The EMWQ Fund has also entered the social media age on Facebook, LinkedIn and Twitter. Links can be found on the webpage. We encourage our active and retired members to join us online. The information is informative and the followers we have online demonstrates the strength of our organization. So join us and invite your friends and family to "follow" and "like" us too!

Plan on attending our 5th Annual Charity Softball Classic at St. Xavier College. Please see the flier on Page 17.

^{*} The above listing may not include all members who have graciously signed up for the Active Payroll Deduction program. This listing represents members that have enrolled through the assistance of Local 2, through the stewards or at the Fund office. It does not include members who signed up directly through the City. Our appreciation goes out to all members who have chosen to support the Widows' and Children's Assistance Fund.
